cameras

Full-featured,
leading camera
technology by
Honeywell.

color cameras

HCC484E

High Resolution Color Camera

- 480 TV lines of resolution • Sensitivity 0.55 lux at f1.2
- Automatic backlight compensation • High and low AGC modes • Push pin connector for 12 VDC/24 VAC power

HCC334E

Standard Resolution Color Camera

- 330 TV lines of resolution • Sensitivity 0.66 lux at f1.2
- Automatic backlight compensation • High and low AGC modes • Push pin connector for 12 VDC/24 VAC power

HCCM474M

Ultra Miniature High Resolution Color/Black and White Camera

- 470 TV lines of resolution • Sensitivity 0.4 lux in color, 0.1 lux in black and white at f1.2 • Extremely small footprint (1.6" x 1.6" x 2.8") • On screen display for set up and adjustment • Digital backlight compensation with 6 zones

HCC474M

Ultra Miniature High Resolution Color Camera

- 470 TV lines of resolution • Sensitivity 0.4 lux at f1.2
- Extremely small footprint (1.6" x 1.6" x 2.8") • On screen display for set up and adjustment • Digital backlight compensation with 6 zones

HCC474M

ACM574TP

ACC484TP

High Resolution Full-Featured Color Camera

- 490 TV lines of resolution • Coax or unshielded twisted pair video output • Sensitivity 0.7 lux at f1.2 • Noise reduction switch for improved performance with DVRs • Digital backlight compensation with 8 zones

ACC334TP

Standard Resolution Full-Featured Color Camera

- 330 TV lines of resolution • Coax or unshielded twisted pair video output • Sensitivity 0.5 lux at f1.2 • Noise reduction switch for improved performance with DVRs • Digital backlight compensation with 8 zones

black and white cameras

HCM574E

High Resolution Black and White Camera

- 570 TV lines of resolution • Sensitivity 0.01 lux at f1.2
- Automatic backlight compensation • High and low AGC modes • Push pin connector for 12 VDC/24 VAC power

HCM384E

Standard Resolution Black and White Camera

- 380 TV lines of resolution • Sensitivity 0.01 lux at f1.2
- Automatic backlight compensation • High and low AGC modes • Push pin connector for 12 VDC/24 VAC power

ACM574TP

High Resolution Full-Featured Black and White Camera

- 570 TV lines of resolution • Coax or unshielded twisted pair video output • Sensitivity 0.1 lux at f1.2 • Noise reduction switch for improved performance with DVRs • Digital backlight compensation with 8 zones

Compact cameras
delivering big
picture quality.

color mini domes

HD3VC4HR

- 3" High Resolution Color Mini Dome
- 470 TV lines of resolution • Sensitivity 2.0 lux at f1.6
 - Vari-focal 4 - 9 mm auto-iris lens included • 360° rotation, 90° tilt • 12 VDC/24 VAC power with line lock

HD3VC4A

- 3" Standard Resolution Color Mini Dome
- 330 TV lines of resolution • Sensitivity 1.7 lux at f1.6
 - Vari-focal 4 - 9 mm auto-iris lens included • 360° rotation, 90° tilt • 12 VDC/24 VAC power with line lock

HD2FC1

- 2" Standard Resolution Color Mini Dome
- 330 TV lines of resolution • Sensitivity 3.2 lux at f2.0
 - 3 mm and 6 mm lens included • 360° rotation, 90° tilt • 12 VDC power

black and white mini domes

HD3VM4A

- 3" Standard Resolution Black and White Mini Dome
- 380 TV lines of resolution • Sensitivity 0.5 lux at f1.6
 - Vari-focal 4 - 9 mm auto-iris lens included • 360° rotation, 90° tilt • 12 VDC/24 VAC power with line lock

HD2FM1

- 2" Standard Resolution Black and White Mini Dome
- 380 TV lines of resolution • Sensitivity 0.8 lux at f2.0
 - 3.8 mm and 8 mm lens included • 360° rotation, 90° tilt • 12 VDC power

KD5 Series

SWX80

SWX81/82 Night Hawk

ExitView

KD5 Series

- 5" Stationary Dome Camera
- Dome installs in a standard 4" x 4" x 2-1/8" electrical box included • Black or white trim-ring, finishes available • Simple installation and maintenance • Adjustable camera mount included with camera/lens • Adjustable inner liner provided
 - EIA/NTSC and CCIR/PAL versions • UL & CE certified
 - Vari-focal lens packages with 3.5 to 8 mm and 5.5 to 33 mm
 - Optional CAT5 video transmission • 4-pin auto-iris connector standard

SWX80

- Bullet Style Camera
- Discreet, bullet style camera • Impact and tamper resistant
 - 4 - 9 mm vari-focal auto-iris lens built in • Color or true day/night camera with IR-cut filter removal mechanism
 - Polished aluminum enclosure with protective sunhood
 - Easy to install • Flexible mounting options • Standard line lock in 24 VAC operation

SWX81 Night Hawk®/SWX82 Night Hawk®

- Bullet Style Cameras with IR Illuminators
- Discreet, bullet style camera with standard IR illuminators
 - Choose from two models: SWX81 with 18 LEDs or SWX82 with 48 LEDs for larger areas • Impact and tamper resistant
 - 4 - 9 mm vari-focal auto-iris lens built in • True day/night camera with IR-cut filter removal mechanism • No focus shift when switching from day to night • Polished aluminum enclosure with protective sunhood • Easy to install • Flexible mounting options • Standard line lock in 24 VAC operation

ExitView®

- Height Strip Camera
- High performance color CCD camera • Functional height strip • Available in silver and black to blend with your decor
 - Plug and play installation • Discreet, value-priced surveillance solution to prevent loss, shrinkage, and robbery
 - Optional 15° angle adapter for an extended field of view

vandal resistant cameras

The world's
toughest camera
line-up.

MagnaView® Series

Modular Camera System

- Metal housing • Wide range of black and white and color cameras, including true day/night and wide dynamic • Popular transmission media (Coaxial, UTP or Fiber*) integrated inside the camera (*V28R only) • 3D gimbal allows for maximum lens rotation and placement • Compatible with Quick Change fixed (2.9 mm to 16 mm) and vari-focal auto-iris lenses (4 - 9 mm, 2.8 - 6 mm, 9 - 22 mm) • Withstands a blow from a 10 pound sledgehammer impact • No-scratch, clear polycarbonate dome with adjustable dome insert to conceal camera • Weather sealed, IP66 • 12 VDC or 24 VAC with line-lock

PrimaView® Series

Modular Camera System

- Strong, lightweight, polycarbonate housing • Wide range of black and white and color cameras, including true day/night and wide dynamic • Popular transmission media (Coaxial and UTP) integrated inside the camera • 3D gimbal allows for maximum lens rotation and placement • Compatible with Quick Change fixed (2.9 mm to 16 mm) and vari-focal auto-iris lenses (4 - 9 mm, 2.8 - 6 mm, 9 - 22 mm) • Weather-sealed for indoor and outdoor locations, IP66 • No-scratch, clear polycarbonate dome has an adjustable dome insert • 12 VDC or 24 VAC with line-lock

PrimaView® C16

Polycarbonate Dome Camera

- Polycarbonate housing • Wide range of black and white and color cameras, including true day/night and wide dynamic
- Popular transmission media (Coaxial and UTP) integrated inside the camera • 5 - 50 mm vari-focal auto-iris lens
- Weather-sealed for indoor and outdoor locations • Converts to a flush or surface mount instantly • 12 VDC or 24 VAC with line-lock

Duracam VK74A

Recessed or Surface Mount Duracam

- Durable, impact and vandal resistant design • High resolution color or standard resolution black and white • Surface mount or in-ceiling recessed • 4 - 9 mm vari-focal lens, or fixed focal length lens • Indoor or outdoor installation • 24 VAC operation with line lock

Duracam VK74C

Corner Mount Duracam

- Durable, impact and vandal resistant design • High resolution color or standard resolution black and white • Surface mount or in-ceiling recessed • 4 - 9 mm vari-focal lens, or fixed focal length lens • 24 VAC operation with line-lock

Duracam VK74W

Wedge Mount Duracam

- Durable, impact and vandal resistant design • High resolution color or standard resolution black and white • Surface mount or in-ceiling recessed • 4 - 9 mm vari-focal lens, or fixed focal length lens • 24 VAC operation with line-lock

V50 WedgeView

Specialty Fixed Camera

- Polycarbonate enclosure is impact-resistant, flame-rated and UV stabilized • Wiring can be completely concealed to reduce the risk of tampering • Manual pan and tilt allow for adjustable camera positioning • Color cameras feature Digital Signal Processing • Compatible with Quick Change Lenses 2.9 mm to 16 mm • Low profile camera comes fully assembled and factory tested, installs almost anywhere in under 15 minutes • Weather sealed enclosure and cable opening for outdoor installations, IP65 • Self-configures to either 12 VDC or 24 VAC

V25 ArmorDome

Dome Camera

- Heavy-duty steel enclosure secured using tamper-resistant screws for added durability • Easy to install — the attractive and rugged housing will blend into any interior • Compatible with Quick Change Lenses 2.9 mm to 12 mm • Withstands a blow from an eight pound sledgehammer • Compact, no-scratch, polycarbonate dome • Color cameras feature Digital Signal Processing • Weather sealed, IP66

V60N/V60A

Night Hawk® and Arctic Night

- Die-cast zinc enclosure • Built-in infrared illuminators allow the camera to see up to 40 feet (12 m) in complete darkness, depending on lens • Arctic version operates in temperatures as low as -50°F (-46°C) • Installs in less than 15 minutes • Fully weather sealed for indoor/outdoor use, IP66

V60 Complete

Desert Hawk and Arctic Hawk

- Die-cast zinc enclosure
- Desert Hawk (V60P) operates in temperatures up to 140°F (60°C)
- Arctic version (V60E) operates in temperatures as low as -50°F (-46°C)
- Installs in less than 15 minutes
- Color cameras feature Digital Signal Processing
- Fully weather sealed for indoor/outdoor use

V150/V151

High Security Surveillance

- 1/4" thick tempered glass window, stainless steel sunshield, dust tight and corrosion proof enclosure make it ideal for harsh environments
- Stainless steel U-bracket and tamper resistant screws add extra durability
- Color cameras feature Digital Signal Processing
- Adjustable camera angle and 5 - 50 mm vari-focal auto-iris lens (V150) or 5.7 - 57 mm motorized zoom lens (V151) adapts the camera to all situations
- Withstands an assault from a 12 gauge shotgun or 9 mm handgun
- IP67

V100

Bullet Resistant Camera

- Machined marine grade aluminum enclosure and 1/2" thick Lexan® window withstands an assault from a 12 gauge shotgun or 9 mm handgun
- Stainless steel U-bracket adds extra durability
- Adjustable camera angle
- Color cameras feature Digital Signal Processing
- Compatible with Quick Change Lenses 2.9 mm to 16 mm
- Tamper resistant screws
- Weather sealed, IP67

V60

V150/V151

Honeywell Video Systems is more than a brand of the finest video surveillance products; it is a whole new way of doing business. It is about people who are passionate about what they do.

camera housings

SnapPak

Pre-Assembled Camera, Housing, and Lens Package

- Convenient, easy to install outdoor installation package
- Includes camera, lens, housing, mount and all needed hardware for outdoor installation
- Color, black and white, and day/night camera options
- Vari-focal lens options, 3.5 - 8 mm and 5 - 50 mm
- Includes heater, blower, and sunshield

SnapPak

1/3" Format, Auto-Iris Lenses

HHC12 Series

1/3" Format Vari-focal Lenses (E-Series)

AD10FH

AD10FCH

Vari-focal and Fixed Lenses (Modular)

HHC12 Series

Environmental Camera Housings

- Easy to install clamshell design for total camera access
- Integrated mounting track for use on any mount
- Dust-proof and IP66 weatherproof rating
- 3 sizes of conduit connection to fit any installation

AD10

Indoor Fixed Camera Dome Housing

- Cost effective indoor dome housing
- Simple installation and camera positioning
- Ceiling tile or pendant mount models
- Tinted bubble with clear viewing slot

Maximize your camera's performance with Honeywell quality lenses

power supplies

KZ0424AW, KZ0824AW, KZ1624AW

Multi-Camera, 24 VAC Smart-Fuse Power Supplies

- 4, 8, and 16 output models • Self-resetting fuses • On/Off switch with power indicator • Large metal cabinet for easy wiring

APS2404UL, APS2408UL, APS2416UL

Multi-Camera, UL Listed, 24 VAC Fused Power Supplies

- 4, 8, and 16 output models • Individually fused outputs • On/Off switch • Power indicators for every output • Large metal cabinet for easy wiring

KZ0424AW, KZ0824AW,
KZ1624AW

APS2404UL

APS2408UL

APS2416UL

KZ1628AEHW

KZ0224NEMA
KZ0224UW

KZ0412UW, KZ0812UW,
KZ1612UW

KZ1628AEHW

Indoor Heavy Duty Power Supply

- For use with multiple indoor high speed domes • 16 channel, 28 VAC output • 20 amps total • On/Off switch with power indicator • Large metal cabinet for easy wiring

KZ0224NEMA, KZ0224UW

Outdoor Heavy Duty Power Supplies

- For use with outdoor high speed domes • NEMA rated outdoor enclosure • 110V or 220V input • Two 24 VAC outputs for camera and heater/blower • On/Off switch with power indicator • KZ0224UW includes lightening surge suppression

KZ0412UW, KZ0812UW, KZ1612UW

Multi-Camera, UL Listed, 12 VDC Smart-Fuse Power Supplies

- 4, 8, and 16 output models • Self-resetting fuses • On/Off switch with power indicator • Large metal cabinet for easy wiring

surge protection

Reliable
power
protection

ASP16

Surge Protection/Battery Back-up Unit

- Uninterruptible Power Supply (UPS) • Diagnostics • EMI/RFI noise filtering • Long battery life • Rack mount kit available

ADSP1

Surge Protector

- Highly reliable protection for power • Video and date in one module • Terminal strip connections for power, video and data in one module • BNC female (in and out) for single point grounding • Does not degrade video image • High impact resistant housing • Lightweight, low profile

ASP16

ADSP1

LumaView SWX75

LumaView SWX200

The Puck

IR illuminators

Produce quality
images in night-
time conditions.

LumaView SWX75/SWX200

IR Illuminators

- Enables IR sensitive cameras to produce quality images under nighttime conditions • Bulbs available in three distinct configurations • Excess heat is conducted away from the bulbs, prolonging bulb life • Filters available for three illumination settings, from overt-visible light to covert-invisible light • Replace bulbs and filters without any loss of illumination • Push-on rubber molds ease filter replacement • Standard filters are interchangeable between illuminators • Combine different bulbs and filters (SWX200) for beam flexibility • Weather sealed for indoor or outdoor use • Built-in photocell detects changes in ambient light level

The Puck

IR Illuminator

- Impact-resistant illuminator withstands the blow from an 8-pound sledgehammer • Illuminator works to distances of 40 feet (12.2 m) for use alongside any IR-sensitive CCTV camera • Pre-configured with 25 wide-angle LEDs • Choice of wide or combined wide/narrow LED versions • Suitable for indoor and outdoor applications • Measures less than 4.5 inches in diameter and weighs under 1 pound • Comes fully assembled for easy installation • Mark and scratch-resistant base and lens • Tamper-resistant security screws for added security • 12 VDC or 24 VAC models available

high speed dome systems

KD6i UltraDome - Indoor Domes

Drop Ceiling and Pendant Mount

- High-resolution (470 TVL) color camera • Optional day/night color camera automatically switches to black and white for enhanced low-light performance • 18x optical/12x digital or 23x optical/4x digital zoom lens options • 6" clear or smoke dome • 360° continuous pan rotation • Variable pan speed 1/10° - 400° per second (proportional to zoom) • Auto pivot tracking function • PTZ patterns with auto learn function • 99 programmable PreShot positions with 24-character labels • 10 programmable VectorScans (video guard tours) • 16 sector IDs with 24-character labels • Auto homing feature • 4 on-board alarm inputs • 3rd Party PTZ protocol translation (Pelco P & D, VCL, AD and Philips) • Optional CAT-5 cable connectivity • Multi-language selection for programming menus and on-screen displays • Internal fixed camera mount option

KD6i UltraDome - Outdoor (Environmental) Domes

Pendant, Wall, Corner and Pole Mount

- Weather, rugged and harsh (pressurized) environmental models • High-resolution (470 TVL) color camera • Optional day/night color camera automatically switches to black & white for enhanced low-light performance • 18x optical/12x digital or 23x optical/4x digital zoom lens options • 6" clear or smoke dome • 360° continuous pan rotation • Variable pan speed 1/10° - 400° per second (proportional to zoom) • Auto pivot tracking function • PTZ patterns with auto learn function • 99 programmable PreShot positions with 24-character labels • 10 programmable VectorScans (video guard tours) • 16 sector IDs with 24-character labels • Auto homing feature • 4 on-board alarm inputs • 3rd Party PTZ protocol translation (Pelco P & D, VCL, AD and Philips) • Optional CAT-5 cable connectivity • Multi-language selection for programming menus and on-screen displays • Internal fixed camera mount option

RapidDome & RapidDome Gold - Indoor Domes

Pendant, False Ceiling and Wall Mount

- Compact 5" clear or smoke dome • 128 presets, 4 preset tours and 4 mimic tours • 28 Privacy • 360° continuous pan rotation

RapidDome & RapidDome Gold Indoor Domes—Drop Ceiling, Pendant and Wall Mount

KD6i UltraDome Indoor Domes—Drop Ceiling and Pendant Mount

KD6i UltraDome Outdoor Domes—Weather, Rugged & Harsh Environmental

RapidDome & RapidDome Gold Outdoor (Environmental) Domes—Pendant, Soffit, Wall and Pole Mount

HD8EXGCM18W

- Variable pan speed 1/10° - 400° per second (proportional to zoom) • Automatic 180° flip operation • Continuous auto focus and auto-iris with manual overrides • Home position • 16 definable sectors with ID • Up-the-coax (UTC) or RS-485 twisted pair operation • 3rd Party PTZ protocol translation (Pelco P & D)

RapidDome:

- High resolution (450 TVL), low-light, color DSP camera • 16x optical/8x digital zoom lens • 64 presets, 2 preset tours and 1 mimic tour • Privacy zone • 4 alarm inputs and 1 relay output

RapidDome Gold:

- High resolution (>460 TVL), low-light, color DSP camera • Optional day/night color camera automatically switches to black and white for enhanced low-light performance • 18x optical/8x digital or 22x optical/8x digital zoom lens options zones • 8 alarm inputs and 2 relay outputs resident in the dome

RapidDome & RapidDome Gold - Outdoor (Environmental) Domes

Pendant, Soffit, Wall and Pole Mount

- IP65/NEMA-4 rated enclosures • Unsurpassed ease of installation • Continuous auto-focus and auto-iris lens with manual overrides • Compact 8" clear or smoke dome • 360° continuous pan rotation • Variable pan speed 1/10° - 400° per second (proportional to zoom) • Automatic 180° flip operation • Home position • Up-the-coax (UTC) or RS-485 twisted pair operation • 3rd Party PTZ protocol translation (Pelco P & D)

RapidDome:

- High resolution (450 TVL), low-light, color DSP camera • 16x optical/8x digital zoom lens • 64 presets, 2 preset tours and 1 mimic tour • Privacy zone • 16 sector identification • 4 alarm inputs and 1 relay output

RapidDome Gold:

- High resolution (>460 TVL), low-light, color DSP camera • Optional day/night color camera automatically switches to black and white for enhanced low-light performance • 18x optical/8x digital or 22x optical/8x digital zoom lens options • 128 presets, 4 preset tours and 4 mimic tours • 28 Privacy zones • 16 definable sectors with ID • 8 alarm inputs and 2 relay outputs

HD8EXGCM18W

8" Explosion-proof High Speed Dome System

- Enclosure is 316L stainless steel construction • Withstands high pressure water washes and salt water environments • Highest rating for explosion proof environments, rating includes continuously present explosive atmospheres • Unit can be mounted in "hot zones" • Fully integrated RapidDome Gold in color and black and white (18x) • Day/night operation • High-speed pan and tilt functions, presets, tours, alarm positioning • Dome assembly plug-and-play for ease of installation and maintenance • NEC505 approval pending

keyboards and controllers

Integrated
control of your
CCTV system.

RapidView™ Series

Dome/Multiplexer Controller

- Highly reliable, rugged design
- Control up to 128 RapidDome and/or Orbiter Series high-speed domes
- Full control and programming of up to 8 duplex or multiplexers
- Variable-speed
- Vector solving
- Twist-to-zoom joystick
- Positive action keys
- Preset and tour programming and activation
- RapidCall instant recall of presets 1, 2, 3 and 4

KEGS5000

CCTV System Controller

- Integrated control of multiplexer and domes
- Remote control of 2 to 16 multiplexers
- Control of 32 to 256 domes
- Full control of all features and menus of the Honeywell Video Systems range of domes
- 3 axis rate proportional joystick with integral zoom control
- Icons for universal intuitive operation
- LCD display
- User programmable macros
- Separate login for operator and supervisor
- Software updates are done directly through serial port
- Alternative camera view
- Associated PTZ call
- Logical camera selection with matrix switcher

Unshielded Twister Pair (UTP)

- Video receiver & hubs
- Full motion black and white or color video transmission up to 3,000 feet (1 km) with UTP ready cameras
- High density 16" 1U high enclosure features 6 ports
- Exceptional interference rejection
- Built-in transient protection and grounding lifting, built-in sharpness and brightness controls
- Green LED indicates "active port", blue LED indicates "power to port"

ATP213A/ATP1613A

Video Transceiver & Hubs

- Full motion black and white or color video at distances up to 1,000 ft (30 m) when used with a Honeywell Video Systems UTP camera
- Equipped with twisted pair output
- Up to 3,000 ft (1 km) with active receivers
- Supports "up the coax" type PTZ telemetry control signals up to 1,000ft (300 m)
- No power required
- Exceptional interference rejection
- Built-in transient protection

ATP212A

Video Transceiver

- Full motion black and white or color video at distances up to 500 ft (150 m) when used with a Honeywell Video Systems UTP camera equipped with twisted pair output
- Supports "up the coax" type PTZ telemetry control signals
- No power required
- Exceptional interference rejection

UTP Video Transmitter

Unshielded Twisted Pair Video Transmitter

- Low profile
- 1U in rack height
- Surface mount technology
- Stainless steel finish

digital video recorders

Rapid Eye Multi-Media Version 6

Digital Video Management System

- Multiple resolutions up to 702 x 480, selectable per camera
- SNTP and DHCP Client • Capture rates up to 80 ips, long term storage up to 6250 camera days • VxWorks (secure and stable real-time operating system) • Authenticated proprietary file format (REM) for integrity of evidence • Administrator-definable user names and privileges • Encrypted password protection • Live monitoring and surveillance of multiple remote locations simultaneously via LAN/WAN or dial-up connections • Multiple users simultaneously access same site for live and/or recorded information • Multiple serial ports for POS and/or PTZ interfaces • Rapid-Search events by motion and time-and-date • Flexible communication options include LAN, WAN, Internet and PSTN • Easy integration with existing or new CCTV equipment

Rapid Eye Multi-Media LT

- Backwards compatible with all previous generations of Rapid Eye Multi-Media units • 4 and 9 channel units, looping outputs • Selectable resolutions on a per camera basis • Long term storage from 200 to 1250 camera days • Capture rates up to 40 ips • SNTP and DHCP Client • VxWorks (secure and stable real-time operating system) • Single channel two way audio • VGA or Composite output for local GUI • Multiple serial ports for POS and/or PTZ interfaces

Fusion DVR Series

Digital Video Management System

- Capture rates up to 480 ips • Live viewing up to 480 ips
- Multiplexed or spot output • Direct POS interface • Remote notification • Display maps of facilities • Smart/Preview/Index search options • Simultaneous connections • Records resolution up to 720 x 480 • Link events to control outputs • Up to 1 TB of onboard storage • Up to 16 channels of audio
- Remote access via PSTN, LAN/WAN, DSL and ISDN

Rapid Eye
Multi-Media Version 6

DVMS Duplex Series

DVMS Simplex Series

AHDR Series

Rapid Eye
Multi-Media LT

TL-One

Fusion DVR Series

DVMS Duplex Series

Digital Video Management System

- 8 and 16 channel models • Supports up to 1 TB • DVMS 1600 Duplex record speed of up to 60 ips • DVMS 800 Duplex record speed of up to 30 ips • Remote management via LAN/WAN, DSL or PSTN using Remote Access Software (RAS) • QNX real-time operating system for reliable 24/7 operation • Event reporting and multi-zone motion detection • POS/ATM text monitoring • Email Alert; automatic alarm notification over TCP/IP networks

DVMS Simplex Series

Digital Video Management System

- 1, 4, 8 and 16 channel models • Programmable time lapse, motion, alarm and text recording • DVMS 100 Simplex record speed of up to 60 ips • DVMS 400Simplex, DVMS 800 Simplex and DVMS 1600 Simplex record speed of up to 15 ips • Remote management via LAN/WAN, DSL or PSTN using Remote Access Software (RAS) • Remote duplex operation via RAS • QNX real-time operating system for reliable 24/7 operation • POS/ATM text monitoring

AHDR Series

Digital Video Recorders

- 1, 4, 9, 16 channel units available • Long-term video storage using XtraStor technology • Simplex or duplex recording mode with a capture rate up to 60 ips • Single channel audio recording/playback • Archive video clips directly to a USB CD-RW or USB-IDE hard disk drive • Multiple recording modes • User-friendly graphical interface • Easy to use front panel controls with LCD display window • Increased capture rate and image quality on alarm • PTZ dome control • Remote access through PSTN, LAN/WAN (internal NIC), DSL and ISDN

TL-One

Digital Video Recorder

- Single channel • Supports up to 120 GB • Record speed of up to 60 ips • Playback speed from 1/32X to 32X • Real-time operating system for reliable 24/7 operation • VCR replacement - works with most multiplexers • Search by time and date, last record, full clip or alarm list

vcrs

KSR1280TN

24-Hour Real-Time/1280 Hour Time-Lapse Recorders

- User friendly on-screen programmable menus • Continuous recording at 20 fps in L18-hour mode (24-hours with T-160 tape) • Audio recording up to 40 hours using a T-160 tape • 31-day battery back-up • Catalogs power losses and alarm triggers • Variety of search and playback functions via jog dial/shuttle ring • Multiple language menus • RS-485 interface for remote operation

KR4096HN

24-Hour Real-Time/96-Hour High-Density Time-Lapse

- Super resolution mode of over 400 lines on standard VHS tapes • Continuous recording at 20 fps in L18-hour mode (24 hours with T-160 tape) • Audio repeat recording and end-of-tape warning • Audio recording up to 40 hours using a T-160 tape • Self diagnostics for automatic problem detection • Automatic head cleaning • Secondary video output on front panel • RS-485 interface for remote operation • Front panel lock mode • Variety of search and playback functions via jog dial/shuttle ring • Power failure recovery recording • Multiple language menus • Built-in time/date generator

KSR1280TN

AQC30E

KR4096HN

KQ7340CU

quad processors

AQC30E

4-Camera Color Quad Processor

- Real-time processing four camera inputs • Single monitor output • Single camera/quad/sequenced view • On-screen display option • Selectable dwell time 3/6/9 seconds • Automatic gain control • Front panel selection of dwell time and on-screen display (OSD)

KQ7340CU

Real-Time 60/50 FPS Color Quad Processor

- Real-time 60/50 fps • Video loss alarm • Picture-in-picture (PIP) display • Selectable display on alarm/quad/full-screen • Quadrant assign function • Auto-terminating camera input • Digital zoom from quad to full screen on VCR playback • Remote control • Auto detecting • Screen freeze capability • User-friendly on-screen programming menu • Multi-lingual menus • 4 alarm inputs • Password protected menus • Rack mount kit included

multiplexers

AXCD4E

4-Camera Color Multiplexer

- Convenient operation using a PS2 mouse or front panel controls
- User-friendly menu structure for simplified operation and programming
- Multiple monitor outputs allow simultaneous multi-camera and full screen viewing
- Simultaneous recording/playback and viewing
- Programmable vector base motion detection with 256 target (16x16) grid per camera
- RS232 or RS485 control
- Alarm input per camera
- Selectable polarity
- Supervisor code plus four user codes
- Programmable day/night detection schedules
- Multilingual setup menus
- Digital zoom
- Capable of decoding tapes from many multiplexers
- On-screen display includes time/date/alarm/video loss/camera title

AXCD9E

9-Camera Color Multiplexer

- Convenient operation using PS2 mouse or front panel controls
- User-friendly menu structure for simplified operation and programming
- Main monitor plus four individual spot monitor outputs
- Simultaneous recording/playback and viewing
- Programmable vector base motion detection with 256 target (16x16) grid per camera
- RS232 or RS485 control
- Alarm input per camera
- Selectable polarity
- Supervisor code and four user codes
- Multilingual set-up menus
- Digital zoom
- Capable of decoding tapes from many multiplexers
- On-screen display includes time/date/alarm status/video loss/camera title

AXCD16E

16-Camera Color Multiplexer

- Convenient operation using PS2 mouse or front panel controls
- User-friendly menu structure for simplified operation and programming
- Main monitor plus four individual spot monitor outputs
- Simultaneous recording/playback/viewing
- Programmable vector base motion detection with 256 target (16x16) grid per camera
- RS232 or RS485 control
- Alarm input per camera
- Selectable polarity
- Supervisor code plus four user codes
- Programmable day/night motion detection schedules
- Multilingual set-up menus
- Digital zoom
- Capable of decoding tapes from many multiplexers
- On-screen display includes time/date/alarm status/video loss/camera title

AXMD4E

4-Camera Black and White Multiplexer

- Convenient operation using PS2 mouse or front panel controls
- User-friendly menu structure for simplified operation and programming
- Multiple monitor outputs allow simultaneous multi-camera and full-screen viewing
- Simultaneous recording/playback/viewing
- Programmable vector base motion detection with 256 target (16x16) grid per camera
- RS232 or RS485 control
- Alarm input per camera
- Selectable polarity
- Supervisor code plus four user codes
- Programmable day/night motion detection schedules
- Multilingual set-up menus
- Digital zoom
- Capable of decoding tapes from many multiplexers
- On-screen display includes time/date/ alarm status/video loss/camera title

AXMD9E

9-Camera Black and White Multiplexer

- Convenient operation using PS2 mouse or front panel controls
- User-friendly menu structure for simplified operation and programming
- Main monitor plus four individual spot monitor outputs
- Simultaneous recording/playback/viewing
- Programmable vector base motion detection with 256 target (16x16) grid per camera
- RS232 or RS485 control
- Alarm input per camera
- Selectable polarity
- Supervisor code plus four user codes
- Programmable day/night motion detection schedules
- Multilingual set-up menus
- Digital zoom
- Capable of decoding tapes from many multiplexers
- On-screen display includes time/date/alarm status/video loss/camera title

AXMD16E

16-Camera Black and White Multiplexer

- Convenient operation using a PS2 mouse or front panel controls
- User-friendly menu structure for simplified operation and programming
- Main monitor plus four individual spot monitor outputs
- Simultaneous recording/playback/viewing
- Programmable vector-base motion detection with 256 target (16x16) grid per camera
- RS232 or RS485 control
- Alarm input per camera
- Selectable polarity
- Supervisor code plus four user codes
- Programmable day/night motion detection schedules
- Multi-lingual set-up menus
- Digital zoom
- Capable of decoding tapes from many multiplexers
- On-screen display includes time/date/alarm status/video loss/camera title

monitors

AMM9

9" Black and White Monitor

- Convenient recessed front panel controls • >800 TVL
- Heavy duty metal cabinet • EIA or CCIR selectable • Video loop-through with automatic termination latching power switch
- Single or dual rack mountable

AMM12

12" Black and White Monitor

- Convenient recessed front panel controls • >800 TVL
- Heavy-duty metal cabinet • EIA or CCIR selectable
- Video loop-through with automatic termination latching power switch • Rack mountable

AMC9

9" Color Dual Rack Monitor

- Convenient recessed front panel controls • 300 TVL, heavy-duty metal cabinet • Supports 2 composite and 1 Y/C video input (looping) • Video loop-through with automatic termination • Audio input/output • Rack mountable

AMC10

10" Color Monitor

- Convenient recessed front panel controls • 300 TVL
- Heavy-duty metal cabinet • Supports 2 composite and 1 Y/C video input (looping) • NTSC or PAL selectable • Video loop-through with automatic termination • Audio input/output
- Rack mountable

AMC14

14" Color Monitor

- Convenient recessed front panel controls • Heavy-duty metal cabinet • Supports 2 composite and 1 Y/C video input (looping) • NTSC or PAL compatible • Video loop-through with automatic termination • Audio input/output • Rack mountable

HMLCD17

HMLCD19

AMC21

21" Color Monitor

- Convenient recessed front panel controls • 450 TVL • On-screen display/setup menus • Heavy-duty metal cabinet
- NTSC or PAL (auto sensing) • S-VHS input and output capability • Supports 2 composite and 1 Y/C video input (looping) • Video loop-through with automatic termination
- Audio input/output • Switchable overscan and underscan

HMLCD15

15" Color LCD Display

- Provides 575 TVL and 1024 x 768 XGA resolution • 1 S-video and 1 composite input • 1 audio and 1 PC line input
- Automatic NTSC/PAL scan system selectable universal power source (100-240VAC) • On-screen display (OSD) control • Desktop or wall mount option • UL, CE and FCC compliant

HMLCD17

17" LCD Display

- Provides 575 TVL and 1024 x 768 XGA resolution • 1 S-video and 1 composite input • 1 audio and 1 PC line input
- Automatic NTSC/PAL scan system selectable universal power source (100-240VAC) • On-screen display (OSD) control • Desktop or wall mount option • UL, CE and FCC compliant

HMLCD19

19" Color LCD Display

- Provides 575 TVL and 1024 x 768 XGA resolution • 1 S-video and 1 composite input • 1 audio and 1 PC line input
- Automatic NTSC/PAL scan system selectable universal power source (100-240VAC) • On-screen display (OSD) control • Desktop or wall mount option • UL, CE and FCC compliant

mobile

Reliable
security
on the go

Digital Chaperone® DDR

Mobile All-Digital Video Data Recording System

- User-friendly BusView™ software has an intuitive interface that lets you quickly find, print, distribute, and archive video and audio files for future use
- Images record with vehicle ID, time and date, camera name, and up to 8 status inputs - descriptive text can be up to 20 characters in length
- Protect your buses even when they're parked - a unique alarm mode starts recording to identify bus vandalism
- Embedded OS for reliable, long term, unattended operation
- Patent pending vibration reduction system enables reliable recording over all road conditions
- Optional GPS module
- Wireless LAN/WAN access
- Open architecture for future external data gathering
- Wider coverage area with four digital D50 or D52 cameras

Digital Chaperone® MDR

Mobile Digital Recorder

- 5 status inputs with on-screen display, including a built-in second camera switch
- Display vehicle speed
- Analog and digital playback
- No computer for set-up - similar functionality to a VCR
- Date and time with automatic Daylight Saving Time
- Optional GPS module

SWS410

Mobile VCR System

- Activates when the ignition is started
- Two audio channels for longer buses
- Increased vibration resistance
- Built-in stop arm switch to record outside the bus when the stop arm has been activated (requires a second camera)
- Can be mounted either horizontally or vertically
- Choose from four camera styles to meet your installation requirements
- Wireless remote for easy on-screen programming
- Front mounted video and audio output jacks
- Automatic Daylight Saving Time
- Optional GPS module records position, direction and speed

Digital Chaperone DDR

Digital Chaperone MDR

SWS410

D50

D52

M70

D29M

FareView

D50/D52

Mobile Digital Cameras

- High-impact, tamper resistant housing
- All-digital camera - provides both video and audio in a digitized data format
- Optional microphone
- Easy to install - designed to be mounted on a bulkhead, wall or ceiling
- User selectable compression, resolution and frame rates
- Flexible mounting options with two windows - get the picture you want (D52)
- Concealed wiring
- Comes fully assembled and pre-focused
- Compatible with Digital Chaperone® DDR System

M70

Mobile Camera

- Day/night camera (color by day, black and white by night) captures images in all lighting conditions
- Optimized audio bandwidth
- Lightweight, compact design
- Easy to install and easy to adjust
- Eight built-in infrared illuminators
- Audio
- Compatible with: SWS410 VCR System, Digital Chaperone® MDR System

D29M

Mobile Camera

- High-impact, tamper resistant dome and housing
- Unobtrusive, small enclosure
- Easy to install
- Audio
- Black and white or color camera
- Compatible with: SWS410 VCR System, Digital Chaperone® MDR System

FareView®

Mobile Surveillance System

- Compact, discreet camera
- Captures images in complete darkness - built-in infrared illuminators
- Two camera inputs
- Secure time & date stamp including vehicle identification and "Chain of Evidence" electronic watermark and recorder unit identification
- Removable image storage media for backup, archiving or upgrading storage capacity
- Compact-FLASH memory stores images for several years
- Driver activated recording to write protected sectors without external power
- Automatic Daylight Saving Time compensation
- Multiple image printing
- Power-save mode to minimize battery drain

system series products

MUST BE AN AUTHORIZED HONEYWELL SYSTEMS
INTEGRATOR TO SELL

Enterprise DVR Series

Digital Enterprise System

- Pentaplex operation that allows real-time recording/recording playback/live viewing/video archiving/simultaneous video and audio transmission • 960 fps per DVR • Stereo audio inputs for each channel (model dependent) • 352 x 240 CIF and 720 x 480 4CIF resolution (model dependent) • Variable bit rating settings up to 5M bit/second individual resolution and bit rate settings per camera • Pre-and-post alarm recording • Video motion detection • Schedule/event/motion detection

MAX-1000®

Video Management System

- Customized programmable keyboards • Logical camera selection • Alternate camera selection • PTZ call • Alarm management • Large library of protocols for PTZ/multiplexer/VCR/printer/peripherals • Recorder management, high level interface integration of third-party security and non-security systems • Smarttext™ • Dynamic cable equalization • Mimic panels, audio/intercom integration • Networking of up to 99 nodes • MAX graphics platform software GUI with full MAX functionality • Automated incident dubbing

MiniMAX™

Matrix Packages

- Simple to install/commission/operate • Pre-configured packages from 32 to 320 inputs quality text on all outputs • External CPU with hard drive and 8 serial ports • On-screen menu from any system monitor • Supports network up to 99 nodes • SETMAX configuration wizard provides intuitive system programming • Integral PTZ control of all inputs • High-density design • Multiple PTZ protocols supported without code translation • Integral camera fail and video loss detection optional alarm and relay interface • Optional peripheral device control • Looping option available

Enterprise DVR

MAX-1000

MiniMAX

KEGS5300
CCTV System Controller

ULTRAKey
KEGSA002

Video BloX

Video BloX Lite

PCK Series

Video Input Module with UTP

KEGS5300

CCTV System Controller

- Stylish customized Lexan keyboard overlay • 100 standard function keys • 100 programmable keys • Alternative key grouping available • 10 user programmable "Macro" selections • LCD display • 3-dimensional joystick • Intuitive universal icons • Fully configurable

ULTRAKey™

Video Management Keyboard

- Fully programmable with customized menus integral backlit LCD touch screen • Complete MAX-1000 compatibility • Ergonomic design with padded wrist rest • Variable-speed joystick with integral zoom control • 2 jog/shuttle controls • Dedicated menu selection • All programming stored in flash RAM • Software uploaded/downloaded

Video BloX

Full Crosspoint Matrix Switch/Control System

- Plug and play • Position independent • Modular system • High-quality images-near broadcast quality performance • High-density compact design • Video and audio input modules co-exist in the same chassis • Dual CPU and PSU capability for redundant systems • Video loss/video level window alarm capability • Flexible sequence engine • User-friendly operation (Quick Group, Scene and View selection) • Fully integrated audio switching • Integrated control of Honeywell's and other manufacturer's PTZ/dome/DVR/VCR/multiplexer peripherals • RS232 auxiliary control port for third-party systems to access system features

Video BloX Lite

Matrix Packages

- Cost-effective smaller system • Maximum size of 96 inputs, 8 titled outputs, powerful monitoring system • VideoCFG configuration compatible with VideoBloX Lite for simple future expansion • Systems can be networked and form smaller satellite nodes on a large VideoBloX network

PCK Series

Programmable Control Keyboard

- Offers desktop control of VideoBloX matrix switchers • Available in various configurations • Control of PTZ/dome telemetry • Control of VCRs, multiplexers and other CCTV peripherals • Function keys for group selection or sequence initiation • Twist-zoom joystick option available • High brightness alphanumeric display • Positive action keys - no membranes • May be used stand-alone for direct control of all equipment

Video Input Module with UTP

Video Input Module with Built-in Active UTP Receiver

- Low profile • 1/2U in rack height • Position independent • Hot swappable • Limited over voltage protection • Surface mount technology • Stainless steel finish

point-of-sale security

CYA Software Integration with Fusion DVR Series

- Real time reporting allows generation of fixed reports, power searches and daily summaries
- Reporting can be ran local or remote
- Power search within the Fusion DVR Series provides corresponding video evidence with transaction data
- Unlimited number of reporting options to choose from
- Filter transactions based by search criteria
- All reports can be exported

TVC-2066

Single Text Inserter

- Integration with CYA software package
- Designed for a single register application on any BNC video switching system
- Inserter sends transaction data from one register onto the camera video signal
- Composite image can be viewed live or in playback mode on an analog or digital recorder
- Questionable transactions can be viewed in minutes
- Alarms can be programmed to remain active for a specified length of time for viewing purposes

2100 Series

Multiple Register Text Inserter

- Multiple text inserter designed to communicate with up to 10 register interfaces
- Superimposes transaction information onto corresponding video of the cashier on a single camera per channel basis
- Text inserter is installed between the cameras and video processor
- May be used with an analog and digital recorder, quad processor or multiplexer
- Composite image can be live or from a video recorder
- Text alarm feature allows questionable transactions to be reviewed

CYA Software
